-BILLS INTRODUCED.

ALBANY.

BY WELESKAPH TO THE TRIBUNA ALBANY, N. Y., Jan. 15 .- The most important event in to-day's session of the Legislature was the quelshing for at least what amounts to the same thing) of the resolutions of Mr. Clark of Scoharabout military despotism, which was pubyesterday's TRIEUNE, If Mr. Clark's efforts to lead his party on the retrepchment question proved abortive, his exertions to-day did not reny more to his credit. The resolutions were cer tainly drawn up in the worst possible shape, and when poved had very little knowledge of parliamentary law aid him in forcing them through. After calling them tion. This effort to choke off debate was not all unpleasant the Republicans; but when, a minute afterward, Mr that they would not be made concurrent, Mr. Pitts of Or-leans took the floor and made the point of order that the previous question having been moved, all amendments were out of order. Mr. Flagg, amoutious to come to the relief of his Democratic rival for the Speakership, made another point of order on Mr. Pitts; but the latter showed the Speaker that he could only entertain one at the same time. Mr. Clark was in a quandary. He wanted the resolutions to pass, but he knew that if they were made concurrent the Sen-side would surely kill them. He tried to move the recon-sideration of the previous question, but Mr. Pitts made the point of order that as the gentleman had voted in the affirmative on the ordering of the previous question, he epublican would move to reconsider the vote ordering e main question, and no Deinocrat was competent to so, they had all to come to a square vote on the origi-il resolutions, which were concurrent. Of course they seed, only one gentleman who has hereto-re acted with the Democrats—W. S. Andrews Brocklyn—joining the Republicans and voting ainst it. The vote was 64 to 47. This the last that will be heard of it. The Senate will treat as it deserves, and our Senators will not be instructed, do our Representatives requested, to follow the advice of at enlightened and statesmanlike body, the Assembly the State of New York.

maneuvered around to kill the resolution. Mr. Kendy of Kings finally moved to lay it on the table, and it was o ordered.

Mr. Kiercan tried to push through a bill this morning.

t is ting it go the proper committee, a supplemen-et to the bill creating a Constitutional convention, to cet that no further apprepriation than that already shall be given by the people toward amending the tution. Mr. Pitts objected, and the bill goes to the

onstitution. Mr. Pitts objected, and the bill goes to the udiciary Committee.

Among the important bills of the session so far introduced is that of Mr. Hartuman of New-York, regulating he charges for the use of the piers, wharves, and bulkleads of New-York and Brooklyn. It provides that it hall be lawful for dockage at the following rates: From very vessel under 100 tuns register, 2 cents per tun. From every vessel over 100 and less than 200 tuns, 25 for the first 100 tuns, and 1 cent for each additional tun. From every vessel over 100 and less than 200 tuns, 25 for the first 200 tuns, and 4 cent for such additional tun. From every vessel of 200 tuns and over, 25 for the first 200 tuns, and 4 cent for such additional tun. From every vessel making fast to another vessel laying at these wharves, one-half the foregoing rates, and every registered vessel 50 cents for each any or part of a day. For every horse used upon any wharf or pier to load and unload cargo, 31 per day or part of a day. For every horse used upon any court. Nothing, however, in this act shall be construct to affect the laws relating to canal-boats.

There was introduced into both Houses a bill to-day for a suspension bridge across the Hudson River at the Highlands, somewhere between Verplanck's Point and Buttermilk Falls. The company has as incorporators some of the most prominent men of the State.

There have been several resolutions introduced in the House providing for investigating committees, and they are in several insideres, nothing more than what is called "striking committees." Mr. Keady's resolution passed to day, making it compulsory upon all intempting of passed committees.

cars will run between sixth and Seventa-aves, and not between Fifth and Sixth.

Mr. Creamer's bill for the relief of the poor of New York, massed in the Senate to-day, may be intended at a general act of charity, but it looks more like a political job to benefit the friends of Controller Connelly and give him a chance to make a few more officers. Instead of giving the power of distributing the charity to some board or commission which would do it without pay, the matter is placed in the hands of Mr. Connelly, who is to appoint it men, one for each ward, to dispense this charity. The bill provides that the Supervisors of the County of New-York may raise the sum of \$600,000 for the purpose of providing for the indigent and destitute people of that county—bonds bearing interest at the rate of 7 per cent, and redeemable in 1888, to be issued to that amount. The bill was put upon its third reading and passed.

Mr. Hah-Yah-Ta-Kee's company of Japanese AIT. Hall-Tail-1a-Rec's company of Japanese gave a private rehearsal at the Academy of Music yesterday. A large number of invited guests were present. The programme may be inferred from the following speech from Hah-Yah-Ta Kee, delivered prior to the performance: "I come to this land of all peoples with a full comprehension of the difficulties which I have to meet; but I had difficulties for twenty years, till I crossed all the bridges of doubt and danger, and met the smiling face of the Tycoon, our Emperor, whose generous patronage made me and my family the favorites of the Court of Japan. On this stage there will be many difficulties, but the chief of these will be to remove from your thoughts the supposition that my company of Imperial performers are of the same grade with those Japanese who have given exhibitions in your various cities. I do not regret this difficulty. My business is to meet and triumph over trouble, for it will make us perform with all our skill. But I ask you to be patient till we can make our preparations for the first performance, on the 24th of the month. To-day our guests can only expect to witness a few of our simpliest feats, but when the season shall commence, all preparations having been completed, we will have great puzzles with which to amuse you. Meanwhile, to the giants of the press, from whose dens beneath the ground roil out millions of books every day, from their iron carriages, let the glants of practical science from Osaca give every honor. The illustrators of natural laws, of inventions, and of artistic skill, are of little value to mankind without the historians who make truth known to the people. We salute you all once more, and beg you to expect little clies to day than our common and least trouble-some feats of skill."

A few days ago Judge Metcalfe, Surrogate of Richmond County, decilned to admit to make the interventions. gave a private rehearsal at the Academy of Music yester-

Daniel Wandell's will, and declared it null and void. On the 18th of December, 1865, Mr. Wandell died at Smithfield, of apoplexy, in his 77th year, leaving, as claimants to an estate, variously estimated from \$150,000 to \$200,000, a widow, two sons, and three daughters. In January, 1866, an instrument, purporting to be the last will and testament of Mr. Wandell, was presented to Judge Metcalf, by Daniel Wandell, jr., and Alfred Wandell, executors, &c., to be proved as a will of real and personal estate, the probate being contested by the sthree daughters. The cross-examination of the witnesses to the will betrayed them into many disagreements in important particulars; the testimony that, after the date, when, it is alleged, the will was executed, Mr. Wandell frequently said that "the law made a will good enough for him," was direct and uncontradicted; and the fact that he had a severe paralytic stroke on the 27th of February, 1865, while the will was executed on the 9th of the following month, when his condition, unless by a miracle, could scarcely have been sound, renders the case eminently interesting. Last May, the testimony was concluded, Mr. George W. Stevens making the argument for the executors, and Mr. Lot C. Clark for the contestants. It is hardly probable that the sons will appeal to the Supreme Court, inasmuch as the will, if upheld, deprives them of all title to the property of their father, beyond a life estate. They are precluded from any sales or changes which might be beneficial, and are tied down to a mere use of a certain part of the property, while the property itself is made to descend to their children. If this view be taken by the sons, the litigation will cease, and the estate, subject to the rights of the widow; be equally distributed.

A fashionable wedding is announced for this evening in the Church of the Pilgrims. The Stereopantascope, before the Young People's Association, in the Pierrepoint st. Baptist Church, this evening.

Relative to the Common Council's appointing a committee to go to Albany to look after the interests of Brooklyn, The Eagle remarks that, if it is the business of one public body to look after another, it will be necessary to elect a Board of some kind to look after the Common Council, and to attend to the legitimate business of that body while its members are at Albany looking after the Legislature. Mr. Jacobs, on Tuesday, secured the unani-

authorizing the credit of the city to be pledged to the extent of \$250,000, that amount to be expended in relieving the distress among the honest working population of Brooklyn. The Eagle fears that Mr. Jacob's measure may only afford sturdy mendicants an additional means of obtaining public charity.

THE HARBOR.—The steamship Pennsylvania, which arrived yesterday, reports that on the 1st linet. in lat. 50° 50′, loo. 20° 50′. Cadt. Lewis of Liverpool was lost, while getting the ship round on the starboard tack. He missed his footing, and the steamer simultaneously giving a fearful lurch, he instantly went overboard. The engines were immediately stopped, and lifebnoys thrown after him, but a fearful north-west gale blowing at the time, and a heavy sea prevailing, all efforts to rescue him were unavailing. The Pennsylvania, consequently, reluctantly continued her course, under the command of Capt. Murphy. She is one of the steamers of the National Steamship Company's line, and Capt. Lewis commanded her from the date of her first arrival in this port, the 8th of May, 1866. PORT JERVIS-The Baptist Church in Port
